Republic of the Philippines:

http://www.wipo.int/directory/en/contact.jsp?country_id=139

Republic of Singapore:

http://www.wipo.int/directory/en/contact.jsp?country_id=154

Kingdom of Thailand:

http://www.wipo.int/directory/en/contact.jsp?country_id=168

Socialist Republic of Viet Nam:

http://www.wipo.int/directory/en/contact.jsp?country_id=185

Annex 3 – WIPO Services

Protecting IP

PCT – The International Patent System

The Patent Cooperation Treaty (PCT) assists applicants in seeking patent protection internationally for their inventions, helps patent Offices with their patent granting decisions, and facilitates public access to a wealth of technical information relating to those inventions. By filing one international patent application under the PCT, applicants can simultaneously seek protection for an invention in 148 countries throughout the world.

Further Information: <http://www.wipo.int/pct/en>

Madrid – The International Trademark System

The Madrid System is a one-stop solution for registering and managing marks worldwide. Two treaties govern the system of international registration of marks: the Madrid Agreement Concerning the International Registration of Marks (1891) and the Protocol Relating to the Madrid Agreement (1989). The system facilitates the obtaining of protection for marks (trademarks and service marks) and, since an international registration is equivalent to a bundle of national registrations, the subsequent management of that protection is made much easier.

Further Information: <http://www.wipo.int/madrid/en>

Hague – The International Design System

The Hague System for the International Registration of Industrial Designs provides a practical business solution for registering up to 100 designs in over 60 territories through filing one single international application.

Further Information: <http://www.wipo.int/hague/en>

Lisbon – The International System of Appellations of Origin

The Lisbon System for the International Registration of Appellations of Origin offers a means of obtaining protection for an appellation of origin (AO) in the contracting parties to the Lisbon Agreement through a single registration. Registrations are published in the official Bulletin and can be searched through the Lisbon Express database.

Further Information: <http://www.wipo.int/lisbon/en>

Article 6ter

Article 6ter of the Paris Convention protects the flags and emblems of states that are party to the Paris Convention, as well as the names and emblems of international intergovernmental organizations (IGOs) against unauthorized registration and use as trademarks.

Further Information: <http://www.wipo.int/article6ter/en>

Dispute Resolution

Alternative Dispute Resolution

The WIPO Arbitration and Mediation Center is a neutral, international and non-profit dispute resolution provider that offers time- and cost-efficient alternative dispute resolution (ADR) options. WIPO mediation, arbitration, expedited arbitration, and expert determination enable private parties to efficiently settle their domestic or cross-border IP and technology disputes out of court.

Further Information: <http://www.wipo.int/amc/en>

Domain Name Disputes

The WIPO Arbitration and Mediation Center provides time- and cost-efficient mechanisms to resolve internet domain name disputes, without the need for court litigation. This service includes the WIPO-initiated Uniform Domain Name Dispute Resolution Policy (UDRP), under which the WIPO Center has processed over 27,000 cases.

Further Information: <http://www.wipo.int/amc/en/domains>
